FRAZER DMS INTEGRATION WITH ITURAN DEVICE DOCUMENTATION

The follow are the screens and options within the Frazer system where you can configure the interface for Ituran units and the automation of the collection tool alarms.

First step is to configure your Frazer system to use Ituran and when to send the collection tool alarms.

CONFIGURE FRAZER TO INTERFACE WITH ITURAN

In System options, go to Starter Interrupt Device Options, click the Ituran Tab to configure

Street City, State, Zipx	Beturn to System Options Window Settings will not be saved until you click "Save" on the System Options window	

It opens the screen below where you

- check the option to "Add option to use Ituran system"
- Enter Ituran integration username and password
- Enter the number of days past due to trigger each collection tool alarm

At the bottom are checkbox options

- Check to send reminders based on promise date instead of due date
- Check to send payment reminder level 3 when promise date is passed
- Prompt to send updated payment reminders each morning (this will prompt you to send commands to all past due account from a pop up window when you first enter the Frazer system in the morning)

LINK CUSTOMER SALE TO AN ITURAN DEVICE

Once the system in configured, Ituran units need to be connected to a sales of a client in order to connect the two.

Select the Sales option, customer and on the bottom, select Ituran

HAVE FRAZER SYSTEM SEND COLLECTION TOOL REMINDERS ON ACCOUNTS

If you selected the option "Prompt to send updated payment reminders each morning" the system will prompt you to "send payment reminders" when you first open the software OR No, send reminders later.

If you opted to Send Later, follow these instructions to send the payment reminders when you're ready.

Click on Customers, select "Send Ituran Payment Reminders"

Click on the Send Payment Reminders button.

🛆 Ituran Payment Reminders		
	Send Payment Reminders	
	No, Send Reminders Later	
		ß

The system will check all accounts for days past due and trigger the appropriate reminders based on your rules.

HAVING FRAZER SYSTEM TURN OFF COLLECTION TOOL ALARMS

Once a payment is made, the paid commands are sent immediately turning off the collection tool alarms

So once you Enter a Payment on an account with an Ituran device, you will see the following screen showing the Frazer system sending the Paid command to Ituran which will turn off the collection tool alarms.
