

PayNearMe

INTEGRATION@ITURANUSA.COM

HELP@PAYNEARME.COM

INTEGRATION GUIDE

BENEFITS:

Improved Collection Efficiency: Automating payment reminders, starter-interrupt commands, and starter-enable commands streamlines collection services, reducing delinquencies and defaults.

Enhanced Compliance: The integration ensures regulatory compliance by treating all customers similarly and providing automated notifications under finance contracts, minimizing potential legal issues.

Increased Productivity: By eliminating manual data entry and duplicate entries, collections managers can focus on high-priority tasks, improving overall productivity.

Better Customer Service: GPS automation provides customers with accurate updates on vehicle status, improving satisfaction and loyalty.

Real-time GPS Device Information: Mutual customers can access real-time GPS data, enabling informed decisions and proactive risk management.

Unified Workflow Management: Integrating Ituran GPS with DMS systems allows dealerships to manage their vehicle finance workflow from a single screen, enhancing operational efficiency.

INTEGRATION@ITURANUSA.COM

HELP@PAYNEARME.COM

WHO CAN USE IT:

Mutual customers of Ituran & PayNearMe

FEATURES:

Starlink: Manage your entire workflow from one screen, one system. Seamless automation - send payment link via text to customer when their car is disabled and they are trying to start it. Sleek: I frame - working on one platform with Ituran window popping up on the Frazer platform.

Shadow: Send a GPS command to enable the vehicle as soon as payment is made in PayNearMe commands and change frequency automatically.

HOW TO SET IT UP:

Email Ituran & PayNearMe support and we'll get you rolling.
